Hyunsoo Shin

M.S., Dept. Applied AI

Graduate Student at Hansung Univ.

Email: shinhs000624@gmail.com

Mobile: +82-10-7523-8997

116 Samseongyoro, Seongbuk-gu, Seoul, Rep. Korea

INTERESTS

- Deep generative model
- Computer Vision

EXPERIENCE

- **Visual Intelligence Lab.** — Seoul, Rep. Korea
  Graduate Student — Mar. 2026 – Present
- **Visual Intelligence Lab.** — Seoul, Rep. Korea
  Undergraduate Intern — Jul. 2025 – Feb 2026
- **MedAI Lab @ Korea Univ.** — Seoul, Rep. Korea
  Co-Research — Dec. 2024 – Feb. 2026

EDUCATION

- **Hansung University** — Seoul, Rep. Korea
  M.S. in Applied AI — Feb. 2026 – Present
- **Hansung University** — Seoul, Rep. Korea
  B.S. in Applied IT Eng. — Mar. 2020 – Feb. 2026

PROJECTS

- Research on Image Generation using a Wavelet Token-based Autoregressive Model
  Visual Intelligence Lab., 2025-2025
- Developed AI models for paragraph-level classification to predict whether text is human-written or AI-generated, **SW Centered University**, 2025-2025
- Developed AI models for Predict Spatially Resolved Gene Expression from H&E Stained Tissue Images, **Korea University Medicine**, 2024-2024

AWARDS

DEEPNOID Award, SW Centered University, 2025

Contribution Award, Hansung University, 2025

First Prize, Korea University Medicine, 2024

SKILLS

- Oracle RDBMS
- C/C++, Python
- Git, Linux, Docker
